

MUHAMMAD NUR IRFAN MOHD ARIFF

Taman Peringgiti Permai, Melaka • 018-3823063 • muhdnurirfanmohdariff@gmail.com

SUMMARY

I am currently pursuing a Bachelor's degree in Information Technology with a focus on Software Engineering at UNIKL MIIT. I am an enthusiastic and dedicated individual eager to gain hands-on experience in various fields. I'm passionate about continuous learning, adaptable to new environments, and committed to delivering excellent service in any role I take on.

EXPERIENCE

Ramadan Challenge by KrackedDevs

Project: Saf - Mosque Community Apps

- Engineered a community platform for mosque accessibility using Next.js and Firebase.
- Implemented PWA features and real-time push notifications for enhanced offline access.
- Optimized user interactivity with smooth Framer Motion animations and a clean aesthetic.

GodamSahur Hackathon 2026

Project: SakuRaya - Duit Raya & Gifting Planner

- Built SakuRaya, a gifting planner using Next.js and Supabase within a 48-hour sprint.
- Developed a real-time database schema for seamless transaction and budget tracking.
- Designed a minimalist, high-contrast UI using Tailwind CSS and Shadcn/UI.
